ABSTRACT

A women's waistless and seamless clothing adherable
underwear includes an oval pad made of a soft absorbent material,
5 wherein the pad has double sided strips of adhesive tape with
removable peel-off cover strips to attach to the inside crotch
area of low slung clothing pants, such as tight pants, leotards
or dungaree jeans facing upward to the skin and crotch of the
wearer. The material is preferably a soft, woven or non-woven,
10 absorbent material. The underwear is particularly suited for
women who wear tight pants, or low waist hip hugger pants, which
widely reveal waist bands and seams of panty underwear, or expose
underwear waist bands. The underwear is minimally intrusive and
is attractive for women who like to wear jeans without underwear
15 but who fear bacterial infection or exposure to clothing dyes or
irritating stitching.
